

## Title & Registration Alert - Motor Vehicle Facility Delays

*The below information is current through November 15th, 2021*

**Update:** Several DMVs in the U.S and MOTs in Canada are experiencing higher than usual processing times due to limited staff or backlog of work that has accumulated due to closures or partial shutdowns of offices. Wheels continues to work with our industry partners to leverage online capabilities and expedite processing of registrations where possible.

**Anything in bold is a new edition for the current week.** Hyperlinks to direct content from jurisdictions have been posted where available.

Here is the most up-to-date status by jurisdiction who are currently experiencing delays. Jurisdictions not listed are processing at their standard times:
