

FleetView Expense Dashboard Recap

Interactive dashboards in FleetView™ now cover the full range of expense topics. These dashboards represent best practice views into analyzing expense data, contain more granularity and filtering than ever before, and are exportable and schedulable for reporting purposes.

The full suite of Expense dashboards include:

- Overview
- Accident & Safety
- Depreciation
 - Disposal Detail
- Fuel
- Funding & Management Fees
- Maintenance
 - Repair Detail
 - Network Status
- Registration & Tax
- Other

For an overview of the Expense dashboards, check out the Quick Bytes – Expense Dashboards webcast recording in the FleetView Help Center. The Help Center also contains detailed user guides.

We have now completed the transition of expense analysis to our Expense interactive dashboards. Reminder: The legacy version of Expense Variance will be discontinued on November 21.

Please reach out to a member of your Wheels Account Team with any questions or send feedback to FleetViewFeedback@Wheels.com. We'd love to hear what you think about our reporting tools.
